## FINANCIAL PROCEDURES

We believe it is important that you know what you can expect from our office in terms of financial responsibility. We strive to keep your costs reasonable by using the following procedures.

We ask that you come prepared to pay your child's co-payment charges on the day of service. We accept cash, checks, credit cards, debit cards, or CareCredit. To save you frustration, we will file your insurance electronically through our computer system as a service to you at no charge.

Please bring your insurance card on the day of service.

We will calculate as close as possible the amount of your co-payment, deductible, and any charges that the insurance company does not cover. It is surprising that most dental insurance companies do not cover certain needed services. These services are still needed, but may not be covered by the insurance company. Examples are fluoride treatments, sealants in some cases, nitrous oxide ("laughing gas"), and some types of fillings. We will do our best to alert you to these situations, although each company is different. **You are responsible for knowing your own insurance policy limitations.**

We are primary providers for **DELTA DENTAL AND BLUE DENTAL INSURANCE**. We will file claims for you with most other insurance companies. Typically, these other insurance companies will pay toward your child's care and often nearly as well as those with whom we participate.

I have read this policy and agree to be responsible for payment of all charges incurred. I also understand that my signature gives authorization for insurance submission.
